

2.0 EDUCATIONAL PROGRAMS

2.1 Educational Programs

The Centralia School District offers a comprehensive set of educational programs and services to be supported by their facilities. In addition to thorough basic education classes in English-language arts, mathematics, social studies and science, the District offers electives in a variety of program areas. The District offers K-12 programs in music, art, physical education, technology, library services, counseling services and CTE. It also offers a variety of programs for students in need of additional time and support, and enrichment/extension programs to include a highly capable program. The facilities that house these programs need to be adequate to deliver an educational program that is diverse and comprehensive. Exhibit 2-1 provides an overview of the educational programs that require adequate spaces to support them.
